INTRODUCING THE AQUA CYCLE

Your golf cart on the water!

Have you ever wanted to have a small watercraft that was **maintenance free, stable, usable all year round, quick to launch, fun for the whole family, easy to maneuver, maintenance free**, and that you could do a variety of activities with? Kind of like a golf cart on the water that you could hop on and off and do all of the short distance activities around your dock and/or cove? Leisure Lifestyle Products presents the best solution—**THE AQUA CYCLE**.

The Aqua Cycle is an incredible on-water pedal or electric motor experience, which travels **twice as fast** as a traditional fiberglass or plastic pedal boat with **half the effort**. Seating is wide and comfortable, with the riders seated in a upright seating position. Able to seat up to four passengers due to its size and stability, the Aqua Cycle effectively becomes your “golf cart” on the water.

Many customers have said that the Aqua Cycle quickly becomes the most frequently used boat on their dock and many say it is, **“the fastest boat on the lake!”** Whatever activity you want to undertake—fishing, catching the sunset, visiting a neighboring dock—there is minimal pre- and post-launch activity involved, making short 10-20 minute activities feasible. There is no hoisting, no motors to start and no covers to deal with. **Just untie the boat and away you go!**

A perfect boat for the whole family, the Aqua Cycle’s simplicity, high visibility and stability makes it **fun and safe for those aged 5 to 95!** With many options available including a front platform for fishing or swimming, a front fishing table with rod holders, a large canopy top, seat cushions and life ring sets, whatever activity you and your family would like to do, the Aqua Cycle’s **barrier-free style of boating** gives you no excuses to seize the moment and get out on the water.

Prices range from \$3,200 to \$5,000 depending on the model and features.

Leisure Lifestyle Products is offering special show pricing and free delivery right to your lake! Free demonstrations available in Peachtree City, GA —by appointment.

Leisure Lifestyle Products is a Southeast distributor for small boats including the Aqua Cycle line of pontoon pedal boats, Ultraskiff round fishing skiffs, Pond King, and Hydrobikes—your bicycle on the water.
